1. The following is an examiner's statement of reasons for allowance: With regards to claims 1 and 15, the best art US 6,264,829 to Antalffy et al do not teach the claimed apparatus or method as having a frame assembly having opposing end, a pivoting end being attached to the bottom cover and a sliding end being slidably mounted for movement along a plane. In particular, the apparatus of Antalffy do not have any moveable components that move along a plane. Additionally, US 5,947,674 to Malsbury et al is cited for teaching means for facilitating movement along a plane. Said means do not include a pivoting end being attached to the bottom cover and a sliding end being slidably mounted for movement along a plane. Claims 4-6,9,11 and 12 were previously objected to for depending on rejected base claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
